# KATKO

A FAMILY COMPANY FROM FINLAND PROVIDING SAFETY ON A GLOBAL SCALE

The history of KATKO dates back to 1938 when the brothers Kauko and Tauno Hyryläinen started their first company to repair car engines.

In 1946, after World War II, they started manufacturing electrical switches.

Already in 1959 Mr Kauko Hyryläinen created the modern-day switch fuse.

Today KATKO's products not only meet the highest quality requirements but are also designed to be environmentally friendly.
