

The new KATKO KU 60 A & 100 A
UL98 Disconnect Switches offer a
complete modular solution.

It allows seamless installation
according to the most demanding
user configurations.

UL98

- Lockable to off-position
- Modular design
- Easy configuration of multiple solutions
- Switching speed is independent of the operator
- Silver contacts ensure safe and durable operation
- Suitable for use on a circuit capable of delivering 50kA rms symmetrical, 600 Vac when protected by Class J, 60A/100A fuse.
