

Manufacturer`s Declaration concerning PFAS

Manufacturers Name: KATKO Oy

Manufacturer Address: Ruosilantie 2,
FIN-00390 HELSINKI, FINLAND

We confirm that our products do not contain any of the per- and polyfluoroalkyl substances (PFAS) listed in the Monograph ENV/JM/MONO(2006)15 (as revised in 2007) of the 'Environment Directorate, Joint Meeting Of The Chemicals Committee And The Working Party On Chemicals, Pesticides And Biotechnology' of the OECD as part of their formulation.

Our products do not contain any of the specified substances like perfluorooctanesulfonic acid (PFOS), perfluorooctanoic acid (PFOA), perfluoroalkyl carboxylic acids (PFCA), perfluoroalkyl sulfonic acids (PFSA) or fluorotelomer alcohols (FTOH), as part of their formulation.

Commission Regulation (EU) 2017/1000 of 13 June 2017 amends Regulation (EC) No. 1907/2006 and drastically reduces the allowed limit concentration of 25 ppb for PFOA in products when coming into force on 04 July 2020. EMS-CHEMIE closely collaborates with its suppliers to ensure and maintain compliance of its products with the effective limit values. EMS-CHEMIE verifies the quality and compliance of its products by regular analytical testing.
